FADE TO BLACK - A Documentary about assisted dying Thursday 9 November 7pm

Peter Short, the charismatic CEO of a major Australian company, learns that he has only months to live after he is diagnosed with terminal oesophageal cancer. Not wanting to face a painful death, Peter decides to source the lethal drug Nembutal, giving him the option to end his own life peacefully. With the help of a rogue doctor who supplies the drug to suffering patients, Peter sets out to have voluntary euthanasia legalised in Australia.

A frank, confronting and often humorous exploration of dying and the fight to legalise physician assisted suicide in Australia, this documentary reminds us that the best adventures in life – and death – are those you could have never possibly imagined. Documentary Australia Foundation
